

# Quick Installation Guide

## Turbo 85 Mbps Powerline Ethernet Adapter

Model # APL8511

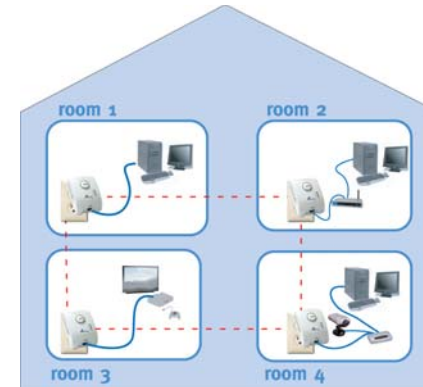

- Package Content:**
- Powerline Ethernet Adapter
  - Network Cable
  - Utility CD
  - Quick Installation Guide

Ver. 1A

If you already have another powerline adapter connected to the router, connect one end of the supplied network cable to your PC, gaming console, or other network device and connect the other end to the Powerline Adapter. Plug the Powerline Adapter into an electrical outlet.

Your home network is ready for use! For maximum performance and compatibility, use additional AirLink101™ Powerline Adapters as needed.

For instructions on configuring the optional security settings, please refer to the User's Manual in the provided CD.

## Section 1

### Installation

For sharing Broadband Internet connection throughout your home, connect one end of the supplied network cable to the router's LAN port and connect the other end to the Powerline Adapter. Plug the Powerline Adapter into an electrical outlet.
