Model # AEN-U25W

Package Contents:

- USB 2.0 Enclosure Box
- USB 2.0 Cable
- Screws (2)
- Screwdriver
- Driver & Manual CD
- Quick Installation Guide

Section 1

Hard Drive Installation

Note: This Enclosure Box supports Plug-and-Play for Windows ME/2000/XP and Mac OS. For Windows 98SE, please refer to the User's Manual in the provided CD for Driver Installation procedures.

Step 1 Use the provided screwdriver to remove the four screws on the Enclosure Box.

Step 3 Remove the bottom cover in the same manner. If you find it hard to lift the plastic holder, press it slightly inward.

Step 4 Unscrew the two screws that hold the circuit board and remove it from the plastic holder. Remove the sticker that is on the circuit board as well.

Caution: Be sure to remove the circuit board from the plastic holder before attaching the hard drive; otherwise, the hard drive's IDE pins may get damaged.

Step 5 Attach a 2.5" hard drive to the circuit board's IDE connector with the label of the hard drive facing up. Make sure the IDE pins are fully inserted.

Step 6 Replace the circuit board and the hard drive back to the plastic holder. Verify that the connectors and LED indicators are properly aligned with the openings of the holder.

Step 7 Turn the plastic holder over. Use the provided screws and the screws removed in Step 4 to secure the hard drive onto the holder.

Step 8 Replace the bottom cover to the holder and then replace the upper cover. Be sure to hook the latches when replacing the covers.

Step 9 Fasten the four screws removed in Step 1.

Step 10 The supplied USB cable has two Type A Connectors labeled **A1** and **A2** and a Mini Type B Connector labeled **B**. Plug connector **B** to the Enclosure Box and connector **A1** to your computer's USB port. The optional connector **A2** is only needed when the hard drive in the Enclosure Box requires additional power.

Congratulations! The hard drive installation is complete. For more information about this product, please refer to the User's Manual in the provided CD.
